

Monthly Business Analysis Report

Helios Energy · 2026-09

Summary and Recommendations

Cross-team efficiency rose and delivery lead times shortened versus last quarter. Cost pressure and regional competition remain the principal risks to monitor. The business delivered steady growth this quarter, with core KPIs on target.

Item	Revenue (k)	YoY
Sales	550	0.248
Operations	569	-0.019
Pulse Dashboard	499	0.063
Sales	953	-0.11

Next-Step Plan

We recommend expanding channel investment and rebalancing resourcing to sustain growth.. Cross-team efficiency rose and delivery lead times shortened versus last quarter.. Revenue concentration in the main product line increased and retention improved.

Cross-team efficiency rose and delivery lead times shortened versus last quarter.. Revenue concentration in the main product line increased and retention improved.. We recommend expanding channel investment and rebalancing resourcing to sustain growth.
